Steel types

Technical data sheet

- Font engraving similar to DIN 30640
- Nickel-plated design
- Single or complete in type box available
- On stock available engravings: A - Z; 0 – 9; . (dot); , (comma); - (dash); / (slash)

Application Area
Steel types were used to stamp fixed text. They can be combined in a type box or in special numbering heads. In BORRIES hand stamping tools steel types were especially used for control stamping.

Options
- Smaller or bigger font heights as well as special characters on request.

Available sizes
Standard: on stock
Premium quality: ca. 1-2 weeks
